WIDNISDA, MORNING 11 6 1 1892

The New York Wolff, and other journals controlled by the steat Uni n I acid and Contral lactic rativas monopols are der ting large part of their space and energies to at tacks on the Northern I semi-land grant life object is as applient is if they kept an annonnecment of it standing in type in every column. It is to maintain the present transcontinental rule is monorally by preventing the ompletion of the great northern road Of this selfish opposition if it could accomplish the object intended the people of the great northwest would be the principal victime It is abetted here by one or two so called newspapers which, in their desporate strug_le for a worthless existence manifestly hope to hear somothing to their advantage as a consequence of taking the part of the one mies of Oregon and the northwest. For the Northern I scale or any other road except as it may be a great factor in the development of the country our people have no partiality But they see in the active energy through which construction of the Northern Pacific is now boing pushed a promise that the disadvantages under which the Pacine northwest has so long labored in consequence of its remote and isolated position will soon be removed . and as the attack on this company's land grant is plainly intended to embarrass and if possi his defeat the construction of the road they naturally feel a deep interest in protection of the grant from spoliation Observe that this attack comes from rival roads, which not only had an equal grant of lands but more than \$60 000,000 in the bonds of the government And yet their agents and organs talk of the "profligacy" of this land grant to the North

What is the actual status of this important grant' By the joint resolutions of congress approved May 7, 1866 and July 1, 1868 the road was to be completed by the 4th of July, 1879 Then a year was to clapse before the company could be held in default. But, in case of default, it was not intended nor provided that the lands should revert to the public domain. The following section of the charter is definite on this point, viz

for upward of one year, then in such case, at any time hereafter, the United States, by its congress,

Thus, in the terms of the charter there is no prevision for reversion of the grant to the United States, but on the contrary a clear declaration by congress that the lands are anpropriated absolutely to the completion of the responded, "There is danger of not a few road. The language of the act is, "that there "poiling" A dispatch says "The suggestion be and hereby is granted." That is, the grant which answered very well for a time, that to the Northern Pacific Company was an absolute grant in presents, - a grant which took be well to inquire into, certainly not to queseffect when the act was approved. That the language of this act operated as a present grant is no new doctrine. Prospects are not favorable for a break up in the blockade to-day. The thermometer is failing and and the barometer rising. Last night's signal service bulletin shows the barometer higher here than in southern Oregon and California, and the wind at all points of observation is in the north; hence customary warm rains are not to be expected. Another unfavorable indication is that the barometer here was no higher than at Umatilia and an east wind prevailed on the upper Columbia. weather would last, but after two o'clock colder

SPECIAL DISPATCHES TO THE OREGONIAN:

New YORK, JAM. 30.—The Connerted Advertiser's Washington special says. The president is to be asked to furnish the senate with some further rorrespondence of the state department during Blaine's premierability. This time it is in relation to differences between Mexica and Ginternals. The story is that Blaine interposed to provent the latter from settling a disputed question with Mexica without the United States being a party to it. The opinion is freely expressed upon the floor of the senate that the result of the controversy over the Chilian and Peruvian correspondence was that the chities against Peru would certainly load to a congressional investigation in order that Shephard may lave an opportunity of substantiating his charges against Blains.

The Haom against Bialace. The Boom against Raines.

Ex-Secretary Bisine's published defense of his South American policy has been the subject of considerable comment and criticism among republican members of congress. A prominent western senator remarked that Blaine's policy as to South America was outrageous; that it was like an overgrown man threatening a child with violence without any provocation. Another western sonator, hitherto a pronounced Blaine man, said: "This has undombtedly hurt Blaine considerably," Blaine's friends say the unfriendly comments towards him The Boom against Binine. ment for Alaska.

SPECIAL DISPATCHES TO THE OREGONIAN.

Senator Teller's speech restorday has attracted ensiderable attention, because of an indirect criticonsiderable attention, because of an indirect criti-cism upon the republican party. After asying the present tariff is not such a tariff as the people de-inand and condenning the policy that would strike out of existence one-half of the money of the world, that men holding securities might have a botter and stronger grip upon the people who earn the money, and who pay taxes in this country. Toller said: "Mr. President, I was educated in the democrati-party, and when it failed to represent my senti-ments. I had courage to get out of it, and I propose upon this question to represent myself and not allow the republican party to be put in a position misrep-resenting the wishes of the great people of the west and south. A Government for Alaska.

A Government for Alaska.

Wassingron, Jan. 30.—Representative George to-day introduced a bill providing a civil government for southeastern Alaska. It proposes to extend over that section such laws of Oregon as are applicable and to provide machinery for administering them and the U.S. laws, as follows: A district attribely with executive power; a U.S. district court with a judge and clerk, the latter to perform also the duties of land register and secretive; a recorder of deeds and three coast commissioners, to reside respectively at Sitks, Wrangel and Juneau City, with jurisdiction as justice of the peace; and a collosion of oustoms at Sitks, to be ex-officie U.S. marshal. The bill also provides for the election of a delegate to the next congress and for organization of public schools and questing of land titles. Samo Oregen Bills

George also introduced a bill to extend the operations of the lighthouse board over the Williamsto and Columbia rivers, from Portland to the sea, and appropriating \$5000 for the erection and maintenance of lights siong those rivers.

Senator Grover to-day introduced bills appropriating \$500,000 for the improvement of the mouth of the Columbia river, \$750,00 for construction of a canal and locks at the easeades of the Columbia, and \$200,000 for continuing improvements at the entrance of Yaquina bay, Or. These bills, at the request of Senator Grover, were temporarily hid on the table in order to afford him an opportunity to call them up and submit some remarks on them before their reference to the committee, at an early day.

Washington Notes. Washington Notes.

Sensior-elect Riddleberger, Gov. Zameron, and a number of members of the Virginia legislature, besides other prominent readjusters, are here to-day to assist Senstor Mahone in his dight against Representative Jergensen over the Norfolk postoffice. Mahone, Cameron and Riddleberger called on the president to-day and joined in a protest against the appointment of Nichols. They urged that the nomination should be withdrawn, and represented that to make the appointment, would be injurious to the interests of the coslition party and would give encouragement to the republican upponents of the coslition, just now at actitical time, when the party has an internal quarted on its hands about the sixter auditorabip. Mahone's friends at lift declare Nichols' nomination will be withdrawn.

Amendment to the Fanding Bitt. Amendment to the Funding Bill.

Following is the text of the pending amendmen to the funding bill as medified by Rawtey's amend ment:

From and after the first day of July, 1892, all three per centum bonds sutherized by this act shall be only bonds receivable as security for national bank circulation, or as security for safe keeping and prompt payment of public money with such banks hereafter organized, and banks applying hereafter. hereafter organized, and bauks applying hereafter for an increase of their capital to the extent of such increase; provided the secretary of the treasury shall not have issued all bonds herein authorized, or so many thereof as to make it impossible for him to issue the amount required; and provided further, that section 4 of the act of June 20, 1874, outified an act, fixing the amount of United States notes and providing for redistribution of national bank currency, and for other purposes be and the same is hereby repealed; and that any national banking association now organized, desiring to withdraw its circulating notes, upon deposit of lawful money with the treasurer of the United States, stall be required to give thirty days notice to the comproller of currency, of its intention to deposit such lawful romey and withdraw its circulating notes; provided that not more than \$5,000,000 of lawful money shall be deposited during any calcular the provisions of this section shall not apply to bonds called for redemption by the secretary of the treasury. Lettalation on Land Grante.

Washington, Jan. 31.—Congressmen from the northwest declare the Cobb bill to forfeit to the government all lands granted railways which have not complied with the terms of their grants is a scheme of the Union and Contest Pacific. Again, it is said the lands of the west are being settled so rapidly that many members of congress think such as have not passed legitimately into the possession of railroads should revert to the government and be opened for settlement. Members of congress from the section of country that will be benefited by the construction of the Northern Pacific will strenuously oppose the bill and all others calculated to interfere with the progress of that read. The line of action of the sense will be to exempt from forfeiture all grants to railroad companies that have made any efforts toward construction, even though they may have failed to comply with all terms of their grant.

As Inter-Oceante Canal Esting An Inter-County Canal Hills Washington, Jan. 30.—The sub-committee of the As later-Geeaste Casal Bill.

Washington, Jan. 30.—The sub-committee of the house committee on commerce, in charge of those bills which have been introduced in regard to the inter-occanic canal, not to-day, and after consideration agreed to report favorably to the full compittee Representative dibbon's bill, which provides for appointment of an inter-occanic commission to determine a plan and route for catabilishment of communication between the Atlantic and Pacific occans, and authorizing the president to appoint commissioners as follows: One from the pacy, one from the army, and one from the coast goodstic survey, and two from civil life. Representative Buchards bill in incorporate an inter-occanic ship rallway company, which is in the interest of the plan proposed by Capt. Eads, was considered by the sub-committee and an untavorable report spread upon. These respective reports will be submitted to a full committee to moreove.
